If the reference asked upon by the President for anti-adulterating Inspection & the license system work found here the President may be asked to supply it. As yet I do not see sufficient reasons to abandon the suggestion.

Order thereon.

The information given in the remission statement in explanation of several of the items is meagre; and in order to enable Govt to deal finally with them a further report is required on the points noted below.

2. The entries against certain individuals relate to so recent a year as 1895-96, a circumstance which shows that these can have left the municipality only about a year ago and that with diligence effort the arrears are still likely to be recd

Some further enquiry

(3) With respect generally to the items under absent persons (items 1 to 345) Govt regret to find that arrears have in many cases remained uncollected for 2, 3, or even 4 years together, though the defaulters apparently continued to own their holdings, houses or carts certain months in each during those years. Information should have been given as to when the men actually left the City. This should, if possible, be now furnished.

4. Items 346 to 367 are recommended for remission on the ground of the poverty of the defaulters and the absence of property liable to be proceeded against. These grounds are not generally stated to be accepted by Govt. Most of the arrears are on account of shop and house taxes. In the case of the former the shops may perhaps have been only temporary ones and there might be difficulty in recovering the taxes. But with regard to houses owned by the defaulters, it is presumed that the valuation of the houses must have been taken into consideration when the assessments were fixed. The Resr should state what such valuation

valuation was in case of an owner occupying his house himself. The mere assertion of poverty does not carry much weight. In that case the [illegible] would not have been [illegible] at all. (I suggest further investigation.)

5. As regards ruined houses (items 960 to 976) it is assumed that they fell into ruin subsequently to their coming under valuation. Information on this point and as to how many of these had been actually uninhabited and deserted should be furnished.

6. Under "Other Causes," the following items call for remark.

Item 1107. The explanation given is vague. What was the "remarkable number" of carriages and animals referred to, and whether the Board had any data in 1890-91 for the carriages and animals actually kept by him.

Items 1120 to 1122. The remark against these items is not understood. If the hackney carriages are owned by the persons named, who objects the hire [illegible]

reason why they should not pay the tax imposed.

Item 1124. It should be explained the amount of house-tax first imposed and the valuation upon which the assessment was based should be reported as well as whether that is the correct rate of tax the Commissioner is to continue and till the house is completed.

Item 1125 relates to the market fees of 2 years. It should be stated whether no security was taken from the defaulter and why the amount was neglected to be collected for two years.

Items 1126 to 1129. The fact of such large arrears having been left uncollected is very unsatisfactory. The Board is requested to state whether the licenses of the defaulters have been granted to other persons. In the case of Item 1130, it is observed that if the license has not yet been cancelled, there could not appear to be a likelihood of recovery. The fact should be intimated

7. Except in respect of the items referred to above, for which a separate statement with the required information should be submitted in due course, I am directed to sanction the remission of the remaining items, including the balances outside the scheduled items of the year 1089-90, 90-91, 91-92 and 92-93. But in the case of vacant houses (items 1089 to 1025), the remission should be in proportion to the period during which the house was actually vacant, but not so as to exceed half the tax imposed (Vide section 66 of the Municipal Act). And the remission in respect of items 1096, 1097 and 1106 are subject to the result of enquiry after the truth of the grounds put forth by the parties.

No. 4857-8 / L. F. 64-97

Passing orders on the remission statement of the Mysore City Municipality aggregating Rs. 3,390-14-6.

READ —

Letter No 51, dated 2nd August 1897, from the President of the Mysore City Municipality, submitting for sanction a statement showing the arrears of previous years aggregating Rs. 3,390-4-6 proposed to be remitted.

---

No. 4857-8—L. F. 64-97, DATED, BANGALORE, 3RD NOVEMBER 1897.

ORDER THEREON.—The information given in the remission statement in explanation of several of the items is meagre; and in order to enable Government to deal finally with them a further report is required on the points noticed below.

2. The entries against certain individuals relate to so recent a year as 1895-96, a circumstance which shows that these can have left the municipality only about a year ago and that with vigorous effort the arrears are still likely to be recovered. Some further enquiry should be made in respect of these cases.

3. With respect generally to the items under absent persons (items 1 to 345) Government regret to find that arrears have in very many cases remained uncollected for 2, 3, or even 4 years together, though the defaulters apparently continued to own their shops, looms or carts within municipal limits during those years. Information should have been given as to when the men actually left the city. This should, if possible, be now furnished.

4. Items 346 to 867 are recommended for remission on the ground of the poverty of the defaulters and the absence of property liable to be proceeded against. These grounds are too generally stated to be accepted by Government. Most of the arrears are on account of shop and house taxes. In the case of the former the shops may perhaps have been only temporary ones and there might be difficulty in recovering the taxes. But with regard to houses owned by the defaulters, it is presumed that the valuation of the houses must have been taken into consideration when the assessments were fixed. The President should state what such valuation was in each case of an owner occupying his house himself. The mere assertion of poverty does not count for much and requires further investigation.

5. As regards ruined houses (items 868 to 976) it is presumed that they fell into ruins subsequently to their coming under taxation. Information on this point and as to how many of these houses have been actually unoccupied and deserted should be furnished.

6. Under "Other causes", the following items call for remark:—

*Item* 1107.—The explanation given is vague The President should report what was the "usual number" of carriages and animals referred to, and whether the party paid any tax in 1890-91 for the carriages and animals actually kept by him.

*Items* 1120 to 1122.—The remark against these items is not understood If the hackney carriages are owned by the persons taxed, who obtain the hire less pay of driver, &c., there seems no reason why they should not pay the tax imposed.

*Item* 1124.—The amount of house tax first imposed and the valuation upon which the same was based should be reported as well as whether the remission, that is, the reduced rate of tax is to continue only till the house is completed.

*Item* 1125.—Relates to the market fees of two years. It should be stated whether no security was taken from the defaulter and why the amount was neglected to be collected for two years.

*Items* 1126-1129.—The fact of such large arrears having been left uncollected is very unsatisfactory. The President is requested to state whether the licenses of the defaulters have been granted to other persons. In the case of item 1130, it is observed that, if the license has not yet been cancelled, there would still appear to be a likelihood of recovery. The fact should be intimated.

7. Except in respect of the items referred to above, for which a separate statement with the required information should be submitted in due course, Government are pleased to sanction the remission of the remaining items, including the whole of the uncollected balances of the years 1889-90, 1890-91, 1891-92 and 1892-93. But in the case of vacant houses (items 1005 to 1025), the remission should be in proportion to the period during which the house was actually vacant, but not so as to exceed half the tax imposed (*vide* Section 66 of the Municipal Regulations) and the remissions in respect of items 1096, 1097 and 1106 are subject to the President satisfying himself after enquiry of the truth of the grounds put forth by the parties.

8. These remission statements should in future be carefully scrutinized and submitted to Government with clear and full explanation in support of each item recommended to be remitted. It is of great importance that the taxes due for the current year should be collected within the year and the President should make every exertion to secure this object. The President should, at frequent or stated intervals, examine the arrears lists and take prompt steps for recovery of the outstandings. The responsible officers of the Collection Department must be made to understand that very severe notice will be taken of any remissness on their part in the realization of the municipal revenue.

Municipal President's Office
Mysore, Dated 6th
December 1897.

From,

The President
Municipal Board
Mysore

To,

The Secretary
to the Government of Mysore
Revenue and General Deptt.

With reference to Government Proceedings No. 4857-8 / L.Dis. 64-97 Dated 3rd November 1897 calling for certain informations and further explanations in connection with the remission statement, I have the honour to report as follows:-

Para 2 of the above order.

Although the items relate to 1895-96 yet the arrears could not

be recovered as it is found on enquiry that most of these persons are very poor and are living by begging without owning any property while others have actually left the place and their whereabouts cannot be traced.

Para 3 of the above order. Items 1 to 345.

Of these items, in 254 cases the arrears are of 1895-96, in 63 they are of 1894-95 and 1895-96, in 18 of 1893-94, 1894-95 and 1895-96, and in 10 of 1892-93, 1893-94, 1894-95 and 1895-96. In this Municipality the tax is not collected within the year it falls due as in the revenue Department but after the close of the year, but in the meantime the collection staff is being engaged in recovering the arrears

of previous years. This practice is in vogue from the time of the establishment of the Municipality This faulty procedure must necessarily leave one years tax uncollected and in a very few cases for 2 or 3 years even though pressing demand is being made for payment. However the period when the defaulters actually left the city is ascertained and noted against each item as far as feasible

Para 4 of the above order. Items 346 to 867

When the assessment was fixed the valuation of houses was taken into consideration and what that valuation then was is now entered against each item in the statement. Although the Board is competent to exer

from taxation huts of small value occupied by poor classes according to para 11 of revenue manual page 169, yet the practice from the beginning has been to include these huts in the accounts though some of them are worth only 10 or 15 Rupees. These cases are now recommended for remission and in future care will be taken to exempt such houses from taxation.

In the remaining cases though the property is of some value yet after the death of the earning member, the survivers are reduced to beggary and unless the house is proceeded against which cannot be done under Municipal regulation, of the very of arrears is impossible. the remission has been -- recommended after due enquiry. engaged

Para 5 of the above order. Items 868 to 976.

Generally the tax once fixed continues till the house owners apply for remission on sufficient ground of the building being dilapidated or having deteriorated. All the houses for which remission is now recommended, have actually remained unoccupied.

Para 6 of the above order Item 1107.

The number of carriages and animals were 3 and 2 respectively and the tax levied on them was Rupees 16/-. The owner paid the same for the year 1890-91 but refused to pay Rs 3/- levied extra on a bullock coach and a pair of bulls on the ground that he did not maintain them. This on enquiry was found cor-

Items 1120 to 1122.

The first two are blind and the last is very poor. As their trade is very precarious in this Town, and what they get is hardly enough to maintain their animals, the sale of the conveyance and animals will hardly fetch any thing. Hence the recommendation.

Item 1124.

At the jamabandi the bungalow was valued at Rupees 12,000/- and an assessment of Rupees 35/- was fixed but the Executive Engineer of the Mysore Division refused to pay the full assessment on the ground of non completion of additions costing Rupees 4,000/-. Accordingly his valuation was accepted for that year and the balance has been recommended for

remission

Item 1125.

As usual only 2 months fees were taken as security and credited towards the arrears at the end of the year. For many years previous to this the same person was contractor and year after year be put off payment. The house, his only property, has now passed out of his hands and he has become a pauper. Hence recommendation for remission

Items 1126 to 1130.

The defaulters were paying their dues every month and at the end of the year they evaded payments as they failed in their trade and their licenses were cancelled

In the case of item 1130 the license has been cancelled

He held 6 shops and evaded payment for all the shops during the last quarter and thus the large amount of arrears of Rupees 404/8 could not be recovered as he possesses no property to proceed against. By the experience gained in the past, now arrangements were being made to recover the registration fee in advance for six months from the vendors and also the surcharges through the Taluk authorities before issue of arrack.

Para 8 of the above order.

The importance of collecting the taxes during the year they fall due has been impressed on the collection staff. But if the system of registering shops depots tea before they are opened and carriages, animals

animals, carts &c. before they are kept, is introduced here also as is done in other cities the difficulty of timely collection will be minimized to a certain extent. The Vice President is overhauling the arrears list from time to time and the collection staff warned to make prompt collections.

I request therefore that you will be good enough to obtain the sanction of the Government for the remission of all the items under the explanation now offered.

I have the honor to be
Sir,

R. No 1314.

Order thereon. No 7260-61
L.T. 64-97

In passing orders on a statement of arrears recommended by the Pres.t of the Mysore City Mc.ty for remission, the Govt. called for further information in respect of certain of the items while sanctioning the remission of the others. (Progs No 405-7-8 L.T. 64-97 dy 3-11-97)

2. The Pres.t, in submitting this information, explains that owing to the extreme poverty of some of the defaulters, the disappearance of others without leaving traces of their whereabouts, the impossibility of proceeding against the houses of those who leave no other properly behind them, and the fact that taxes are not collected within the year for which they are due but after its close

of the items adverted to has now become impossibles.

3. The Govt ~~have~~ are pleased, on a consideration of these explanations, to direct that the items not already remitted under the Order of the 3d Nov 1897 be written off the accounts.

But for future every effort should be made to collect the municipal revenue without allowing to fall into arrears and ~~greater~~ ~~scrutiny~~ and the work of the collection department should receive better accounting and supervision.

Where was the license fee for boat which is introduced? The letter does not contain the date. This does not seem to interfere with the house tax. Why was it abandoned under what authority? Municipalities? Thought all houses were taxed alike. What is the practice in Uganda. Let me have a detailed & full memo

SIR,

With reference to your docket no 2 [illegible] 64 97 dated 11th July 1898, forwarding the Hon'ble license fee for pol-Kilns was levied and why, and under what authority the house tax payable by the pollers was abandoned &c, I have the honor to state that no license fee for pol Kilns was levied up to the year 1894-95 although sanctioned in notification no 165 dated 5th June 1888 and it was only [illegible] ordered [illegible] to be enforced in the case of any more but only house tax was levied.

2 Under the Mohalurfa rules all traders in the city are levied professional tax. Accordingly the pollers were taxed Rs 2/- each on account of the trade and house tax being remitted under the old Mohalurfa rules published in the Revenue manual which enjoined the levy of the higher of two taxes viz professional and house tax.
